Norway

Page 237, add two previously unlisted bridges in Innlandet County, Norway. (added January 10, 2024)

Note: These two bridges are not being assigned World Guide numbers at this time. Our normal pattern is to use the two letter country code, followed by a number representing the first level administrative subdivision, in this case counties, and then a sequential number for each bridge in that county. Norway has reorganized its counties twice in the past four years. Due to this instability, we will not assign numbers yet.
